80	Hawzien	Debrehiwot	Awadu	Tahtaysagalu	HDW (Rehab)	13.9558	39.40509	2013

**NOTES:**

1. Some wells were found dry during construction (about 2.5%) but all wells completed are still functioning
2. GPS locations have been provided by REST (WellWishers' Programme Implementation Partner) from and including the 2009/10 programme
3. HDW = Hand Dug Wells
4. SBH = Shallow Bore Holes
5. Wells built in 2014 should be added to this schedule early in 2015, after REST's final report has been received
6. Well numbers 89, 90 & 91 in the 2011 programme, were fully funded through WellWishers, by John Pollak and Friends
7. Dozens of other wells have also been fully funded by other parties. Please contact Ross Allan if you'd like your generosity made public
